HEALTH AND SAFETY REPRESENTATIVE

December 2018 – December 2020

MINING AND EMERGENCY RESPONSE COMPETITION

November 2019

MINING AND EMERGENCY RESPONSE COMPETITION TEAM CAPTAIN

November 2020

MEDICAL EMERGENCY SERVICES OFFICER

KARARA MINESITE

February - Present

During my time working for Downer at Karara I had no hesitation in undertaking the role of an ERT member. I have gained a wealth of knowledge through my ERT training from Karara's highly skilled mentors.

As an elected Health and Safety representative I have always been outspoken in the health and wellbeing of my co-workers. I believe this to be an integral role in high risk work areas. I have found this role to be highly beneficial in my continued learning and believe I have conducted myself in a manner which my peers deemed suitable.

The Mining and Emergency Response Competition has proven to be an invaluable tool in my emergency response skillset; the opportunity to partake in mock scenarios with veterans of the industry has offered myself a greater appreciation of the hard work and dedication it takes to be a first responder in a mining environment.

As I have been selected to Captain for both 2020 and 2021 Karara team at the Mining and Emergency Response Competition, I hope to prove myself to be level-headed in the face of adversity.
